

Amendments to the claims:

This listing of claims will replace the prior version of amended claims in the application.

Listing of claims:

Claims 1-11 (cancelled).

12. (Currently amended) In a process for the preparation of a A composition for topical administration, comprising 5-methoxysoralen, the improvement consisting of adjusting the 5-MOP concentration in the composition being adjusted by adding a suitable amount of bergaptene-free natural citrus (bergamot) essence.
13. (Currently amended) The process eomposition of claim 12, wherein the 5-MOP concentration is adjusted to 1 to 100 ppm.
14. (Currently amended) The process eomposition of claim 13, wherein the 5-MOP concentration is adjusted to 1 to 60 ppm.
15. (Currently amended) The process eomposition of claim 12, wherein the 5-MOP concentration is adjusted to 60 to 100 ppm.
16. (Currently amended) The process eomposition of claim 12, wherein the 5-MOP is introduced using pure natural citrus (bergamot) essence.
17. (Currently amended) The process eomposition of claim 12, wherein the composition is in a form selected from the group consisting of a cream, an oil, a spray and a milk.
18. (Currently amended) The process eomposition of claim 12, wherein the composition which also comprises at least one ultraviolet screening agent.

19. (Currently amended) The process composition of claim 18, wherein the screening agent is an inorganic screening agent.
20. (Currently amended) The process composition of claim 19, wherein the screening agent is selected from the group consisting of titanium dioxide and zinc dioxide.
21. (Currently amended) The process composition of claim 18, wherein the screening agent is a chemical screening agent.
22. (Currently amended) The process composition of claim 21, wherein the screening agent is selected from the group consisting of ethylhexyl para-methoxycinnamate and 1,7,7-trimethyl-3-(4-ethylbenzylidene)bicyclo[2.2.1]-hepta-2-one.
23. (Currently amended) The process composition of claim 18, wherein the composition which comprises 1 to 5% by weight of screening agent(s).
24. (Currently amended) The process composition of claim 12, wherein the composition which comprises no chemical screening agent.
25. (Currently amended) The process composition of claim 12, wherein ~~its the~~ screening index of the composition is a maximum of 12, ~~preferably a maximum of 10.~~
26. (New) The process composition of claim 12, wherein ~~its the~~ screening index of the composition is a maximum of 10.
